Contents

Review Articles

Monitoring and Modelling of Sediment Flushing : A Review

G. Petkovšek

Research Articles

Lucas Polynomial Solution of a Single Degree of Freedom System

N. Baykuş Savaşaneril

A Comparison of The Performances of Conventional and Low Salinity Water Alternating Gas Injection for Displacement of Oil

E. Bucyanayandi and M. S. Ergül and İ. Kocabaş

A Novel Wastewater Load Allocation Approach for River Basins Using Simulation-Optimization Models

D. Sadak and M. T. Ayvaz and A. Elçi and M. Dilaver and S. Ayaz

Numerical Modeling of Flow Pattern at a Right- angled River Bend Using CCHE2D Model

A. Das and S. K. Biswal
